

Drowning

Babies can drown in as little as 25mm of water

25mm

- ✗ Never leave a baby or child in the bath unsupervised, not even for a minute.
- ✗ Never leave a baby or child alone in a bath seat.
- ✓ Constantly supervise and stay with children in swimming pools.
- ✓ Empty paddling pools and store them away when not in use.
- ✓ If you have a pond always supervise closely, fence it or fill it in!!
- ✓ Be careful when children visit gardens or parks that have ponds or lakes.

The sea and shorelines are unpredictable with waves, tides and hidden currents that can drag you out in seconds. Respect the Water.
